The cover on this year's report was designed by Robert Lorette, a sophomore at Peterborough High School. The picture, by W. Raschke, and called "Our Town", shows the old bridge which spanned the Contoocook and served so long and well. During 1940 the "old bridge" was demolished to make way for a new single span structure which was itself completed early in 1941. After the completion of the approaches the new bridge will become a worthy successor to the old which was admired and loved by so many.

# TOWN WARRANT

**To the Inhabitants of the Town of Peterborough, in the County of Hillsborough, in said State, qualified to vote in Town Affairs:**

You are hereby notified to meet at the Town House in said Town on Tuesday, the Eleventh day of March next, at eight-thirty of the clock in the forenoon, to act upon the following subjects:

1. To choose all necessary Town Officers for the year ensuing.

2. To raise such sums of money as may be necessary for the maintenance of the poor, for the laying out and repairing of highways, and for all other charges arising within the Town, and appropriate the same.

3. To raise and appropriate such sums of money as may be necessary for the support of the Fire Department, the Public Library and for Memorial Day.

4. To see what sum of money the Town will vote to raise and appropriate towards paying the Town debt and interest.

5. To hear the reports of agents, auditors, committees, or officers heretofore chosen, and to pass any vote relating thereto.

6. To see if the Town will vote to instruct the Selectmen to appoint a Police Officer, or as many as may be necessary, to preserve order in and about the public places of the Town, and to perform other duties as may be required by the Selectmen, both day and night, and raise and appropriate money for the same.

7. To see if the Town will vote to accept legacies and gifts given to the Town in trust by any individual or individuals.

8. To see if the Town will vote to raise and appropriate the sum of Eight Hundred Thirteen Dollars and Fifty-four Cents ($813.54) provided the State gives Thirty-two Hundred Fifty Four Dollars and Fifty-seven Cents ($3,254.57) for Town road maintenance and construction of Class Five highways.

9. To see what sum of money the Town will vote to raise and appropriate for the expense of supervision and materials on proposed projects to be undertaken through Public Works Administration or Works Progress Administration.

10. To see what sum of money the Town will vote to raise and appropriate toward a complete survey and mapping of the entire town.

11. To see what sum of money the Town will vote to raise and appropriate toward paying for Electricity, both for power and lighting purposes to be used at the new Swimming Pool on Union Street.

12. To see if the Town will vote to raise and appropriate the sum of $400.00 to the Monadnock Region Association of Scenic New Hampshire for the issuance and distribution of printed matter, newspaper and magazine advertising, calling attention to the resources and natural advantages of the Town in cooperation with the other thirty-seven towns in the Monadnock Region.

13. To see what sum of money the Town will vote to raise and appropriate for the suppression of gypsy and Brown Tail moths, White Pine Blister, or any other insect or pest.

14. To see if the Town will vote to go on record as favoring the use of the Lower Town Hall without charge during the present defense program, as headquarters for the Peterborough Chapter of the American Red Cross, or take any other action relating thereto.

15. To see if the Town will vote to raise and appropriate the sum of One Thousand Dollars ($1,000.00) for the use of the Town History Committee.

16. To see what sum of money the Town will vote to raise and appropriate for the extension of the Town Water System from a point opposite the Junction of Concord Street and Sand Hill Road to a point near the Peterborough Hospital Building, or take any other action relating thereto.

17. To see what sum of money the Town will vote to raise and appropriate for the extension of the Town Water System on the Old Dublin Road from a point nearly opposite the Derby Property to a point opposite Noone Avenue, or take any other action relating thereto.

18. To see what sum of money the Town will vote to raise and appropriate for repairing the Sand Hill Road from the Old Mountain Road to the residence of Carl T. Keller, or take any other action relating thereto.

19. To see if the Town will vote to adopt the provisions of the Municipal Budget Act.

20. To see if the Town will vote to raise and appropriate the sum of Five Hundred Forty Dollars ($540.00) for a snow plow for the Highway Department, or take any other action relating thereto.

21. To see what sum of money the Town will vote to raise and appropriate for the construction of a cement sidewalk on the East side of Depot Street, beginning at a point opposite Wyman's Market and extending to a point nearly opposite Ryan's Lunch Diner, or take any other action relating thereto.

22. To see what action the Town will take regarding the acceptance of bequests made to said Town under the will of the late Eben W. Jones.

23. To see if the Town will vote to appoint a committee to study the reduction of the County Tax or take any other action relating thereto.

24. To see what sum of money the Town will vote to raise and appropriate for the re-construction of the Old Dublin Road, and to accept State Aid, or take any other action relating thereto.

25. To see if the Town will authorize the Selectmen to administer or dispose of any real estate acquired by the Town through Tax Collector's Deeds.

26. To see what sum of money the Town will vote to authorize the Selectmen to borrow in anticipation of taxes.

27. To see if the Town will transact any other business that may legally come before this meeting.

Given under our hands and seal this Twenty-Fifth day of February, in the Year of our Lord, Nineteen Hundred and Forty-one.

### ADAMS PLAYGROUND COMMITTEE REPORT

You will notice that $450.00 was spent for personnel, which is practically double the amount spent in the past few years. It is the aim of the Committee to coordinate the program at the Playground and the Swimming Pool, which will give the town a program similar to that of the summer camp without the necessity of the children being away from home. L. M. Sadler, a member of the department of Physical Education of Dartmouth College, was retained as instructor and for a five week period had as an assistant Nadene Nichols.

The Committee believing that the Playground is for boys and girls of all ages felt justified in the expense of personnel and the selection of the same. The attendance record, which does not cover all those using the Playground, during the ten week period was 2673, which is the largest attendance for many years.

In addition to athletics, many additional games were added and a great deal of interest was shown in the handicraft work, which we hope may be made more of the coming season.

Considerable expense was involved in clearing up the stumps dumped at the Playground by the town, following the hurricane of 1938.

Your committee feels that further coordination between the Playground and the pool will add greatly to the furtherance of both projects and we greatly appreciate the cooperation of the New Hampshire State Forestry and Recreational Department, given us by their Recreational Director Russell B. Tobey.

EDWARD ELLINGWOOD

## AUDITORS' REPORT

We, the undersigned auditors of the accounts of the Town of Peterborough, New Hampshire, hereby certify that we have carefully examined the foregoing accounts of the officers, committees and others having charge of moneys for the year ending January 31, 1941, pages 264 to 315 inclusive with the exception of the Weston Memorial Fund account, the James Smith Fund account and the Amanda Richardson account. With minor exceptions for which corrections now appear in the Assets and Labilities statement, we found them correctly cast and properly vouched. We did not verify the amounts given us as uncollected taxes and water rents, assuming that their publication elsewhere in this report will provide an adequate check.

After our 1939 audit, your three auditors recommended in writing to the Selectmen that the Overseer of the Poor be bonded. Our present audit reveals that this recommendation has not been complied with. We again bring this matter to the attention of the voters and renew our recommendation.

Periodicals and newspapers given to the Reading Room: Advance, Woman's Society of the Union Congregational Church; American Forests, Miss Anna L. Prichard; American Issue, American Issue Publishing Co., Washington, D. C.; American Legion Monthly, Mrs. Robert E. Walbridge; Bell Telephone Quarterly, New England Telephone and Telegraph Co.; Bulletin of the American Society for the Control of Cancer; Christian Register, Woman's Alliance of the Unitarian Church; Christian Science Monitor, Informal Group of Christian Scientists of Peterborough; Christian Science Sentinel, A Friend; Columbia, Knights of Columbus, Keene; Dupont Magazine; Guernsey Breeders' Journal, The American Guernsey Cattle Club; Health, State Board of Health; The Household Magazine; Living Church, Mrs. William H. Schofield; Missions, Miss Flora J. Tubbs; National Historical Magazine, Peterborough Chapter, D. A. R.; National Humane Review, Miss Fanny Sturgis; National News of the American Legion Auxiliary; New Hampshire Issue, New Hampshire Anti-Saloon League, Concord; Our Dumb Animals, Mass. Soc. Prevention Cruelty to Animals; Peterborough Transcript, Transcript Printing Co.; Red Cross Courier; The Rosicrucian Magazine; Rotarian, Peterborough Rotary Club; Specialty Salesman Magazine, Mr. H. J. Bligh, Milwaukee, Wis.; Telephone Quarterly and Telephone Topics, New England Telephone and Telegraph Co.; Troubadour, State Planning and Development Commission; Watchman, Seventh-day Adventist Church; Woman's World, Mrs. Elwood A. Aldrich.

During the building of the new bridge, the library personnel have again had to adapt themselves to many inconveniences, as well as those of our patrons who patiently climbed over piles of sand and stones to still continue their use of the library.

As in former years the library has loaned a large number of books to the schools for supplementary reading. Out of a registration of one hundred eighty-one at the Central School, one hundred five pupils have library cards. Many books have been loaned to the West Peterborough School.

The librarian has had classes in the morning for the eighth grade for instruction in the use of the library, also the seniors were taken on a tour of inspection. The classes were accompanied by Miss Foss, English teacher.

A talk at the Peterborough Garden Club was given by the librarian, reviewing a few of the many books on gardening available at the library, with an exhibition of titles on the subject.

Several outstanding exhibits have been held during the year, beginning with the MacDowell Stamp Day, with its valuable collection of MacDowell material owned by the library and also loaned by Mrs. MacDowell. The librarian, with Mrs. Hunter and Miss Ariel Cutler, who gave their time to collect and help arrange this exhibit, fully appreciated the honor extended the library by Mrs. MacDowell and Miss Richardson in loaning many precious pieces.

There was an exhibition of English photographs taken and given the library by Miss Esther Jackson.

The exhibit of the original illustrations done by Philip L. Martin for "The Hopskips" book by Nancy Byrd Turner and Gertrude Nichols.

Children's Book Week featuring South America, and a display of miniature colonial furniture made under the direction of the National Youth Administration of Manchester; both showing books obtainable at the library on those subjects. Through the courtesy of the Public Service Company, these two exhibits were at their store.

Last, but not least, was the very successful art exhibit given in observance of National Art Week. This was one of the largest exhibits in the state. One of the outstanding features was that all exhibits were by living, local exhibitors. The flowers, during this week, were given in memory of Mrs. Helen B. Cutler and Mrs. Castella Cutler Craig.

The people at the Peterborough Home for the Aged are still having books carried to them by Miss Ariel Cutler.

We have read of the forcible removal of many books from the Paris libraries, showing that in those countries people are not allowed to read what they want, but what their rulers want them to read.

In closing, I wish to quote the following in relation to libraries from a message of Governor Blood:

"We in New Hampshire have access to books on both sides of all questions. I would urge each of you to make full use of the facilities your libraries and bookstores provide in

informing yourself regarding present-day problems. An informed citizenry is of vital importance to this country today.

"I would urge you to keep a sharp watch, lest any efforts be made to curtail the freedom of your libraries. Do not let prejudice influence your own point of view; do not let pressure remove from your shelves books that should be available to paint a rounded picture of any situation.

"The dictators have boasted that freedom of thought in the democracies is a potent weapon against the democracies. Libraries can be influential in proving that the dictators are wrong, that freedom of thought is a weapon for, not against, a civilized way of life."

May we always continue to be one of those libraries where people may read what they want.

Respectfully submitted,
MARTHA E. CUTLER
Librarian

## Survey and Mapping of the Town — Surveyor's Report

On account of the untimely death of Mr. Frederick Phillips the work he planned was not undertaken until late in the year, December 10th, 1940. A careful examination was made of all maps and notes made for the Town by Mr. Phillips, Mr. Jones and other surveyors and all this material was indexed for future use.

At the direction of the Selectmen the following work was done in December 1940 and January 1941:

### SURVEY AND MEASUREMENTS OF TOWN LINES

1. A section of the West Line from Dublin Road route 101 southerly along the Dublin and Jaffrey lines to Peterborough southwest corner — a distance of 3.4 miles.

2. A section of South Line from Jaffrey line easterly along Sharon and Temple lines to Peterborough south east corner and north to Wilton Road — a distance of 5.3 miles.

### Other Lines to be Completed

1. East line: A section of line from Sand Hill Road southerly along Greenfield and Temple lines to Peterborough south east corner and west to Miller Park Road. Also search for corner (s.e.) of Peterborough, at Temple, east of Miller Park Road.

2. Re-set stone post on Peterborough — Dublin town line on route 101.

3. Move stone post and Town Line post to 3 corner stone-walls on Peterborough — Sharon town line on Old Street Road.

4. And other unsurveyed sections within the town.

### Recommendations

Because only the original maps exist and no copies, and for ordinary uses the original maps should not be handled, it is recommended that one copy be made of each, and that tubes or map drawers to contain the originals should be provided.

Respectfully submitted,

H. Thorn King, Jr.

# REPORT OF THE SUPERINTENDENT OF SCHOOLS TO THE PETERBOROUGH SCHOOL BOARD

I enclose with this my seventh annual report, the schedule of teachers for 1940–41, the financial report, the budget, and the other reports belonging to the school department.

There are five new members of our teaching force this year.

Mr. Edward J. O'Gara was granted a leave of absence for the school year to continue his graduate work. Miss Foss has taken over his classes for the year and Miss Dorothea H. Graves of Berlin, N. H., was chosen to take up the work formerly carried on by Miss Foss. Miss Graves is a graduate of Plymouth Teachers' College, 1935, with four years of teaching experience in Laconia High School.

Miss Dorothy A. Neel of Lawrence, Mass., a graduate of Boston University, 1940, was elected to the Commercial department as assistant to Miss Beaudry. She has had practice teaching in the Lawrence High School.

Miss Greta Sundin of Jackson Heights, N. Y., became teacher of Physical Education. She is a graduate of Savage School of Physical Education (N. Y.) 1939, and of Boston University, 1940.

At the opening of the school year Miss Virginia Hough resigned as Music Supervisor in order to accept a scholarship at the University of New Hampshire, and Miss Alberta Cobleigh, of Wilkes-Barre, Pa., who received her degree at New York University in 1938, was elected to this position.

The greatly increased enrollment of the first grade necessitated the election of an assistant for this grade who could also assist elsewhere in the primary grades, and for this position Miss Alice Gay, a graduate of Fitchburg, Mass., Teachers' College, was elected and began work in October.

The total enrollment of the Peterborough schools for the present year is 445 — an increase of six over the number reported in February, 1940 and a decrease of five from the enrollment for the school year ending June 30, 1940.

The tabulation by schools is as follows:

| | 1939–40 | 1940–41 (to Feb. 1) |
|---|---|---|
| Senior High IX–XII | 178 | 166 |
| Junior High VII–VIII | 77 | 69 |
| | 255 | 235 |
| Grades I–VI | 195 | 210 |
| | 450 | 445 |

Tuition pupils have been enrolled in the High School from the following towns:

| | | |
|---|---|---|
| Rindge | 3 | |
| Temple | 1 | |
| Bennington | 8 | |
| Francestown | 4 | |
| Harrisville | 13 | |
| Dublin | 20 | |
| Greenfield | 14 | |
| Sharon | 2 | plus 12 elementary |
| | 65 | |

Of the tuition pupils registered one from Dublin and one from Greenfield left school and two pupils from Dublin moved to Peterborough making the number of tuition pupils on February 1, 1941 — 61 High School and 12 Elementary.

As mentioned in last year's report the Home Economics department has been working for the past two years under the provisions of the George-Deen Act. The reimbursement from the federal funds for the school year 1939–1940 was $318.48. For the present school year the amount is $240.46, the reduction in the grant being due to the larger number of high schools in New Hampshire making application for these funds. We shall not know until the close of the school year how large the sum will be for the next allotment, but with more schools applying for this grant each year it is likely that the amount allowed the school next July will be still further reduced.

The testing program has been carried on even more extensively than in previous years. Both intelligence and achievement tests have been given and the tabulated results have been carefully compared with the same grades in the other towns of the supervisory union.

The attention given to the adjustment of pupils to the junior high school grades has brought about encouraging results. During the past year the principal and other teachers of the higher grades in the Central School have worked to so strengthen the standard that no pupil doing grade level work shall be allowed to pass into the next grade without having first completed his grade activity. Through this plan we hope to avoid congestion of pupils in the sixth grade and also be satisfied that all pupils promoted from this grade shall be capable of carrying on seventh grade work.

Our school system has been fortunate in securing a group of earnest and loyal workers to teach the children of the community. All have been well trained for their work and are anxious for improvement in service. Frequent group meetings and conferences assist materially in this improvement.

Each spring all our teachers attend the Institute at Keene, which is conducted by the State department. In October our schools closed one day for the State Teachers Association which met at Rochester, and on the evening of November 19th met with the other teachers of the Peterborough-Jaffrey union at Shattuck Inn, Jaffrey, where some sixty teachers and guests listened to an interesting and helpful address by Principal Clarence P. Quimby of Cushing Academy.

Each year finds new problems greater and more baffling than those that have been met before. Political, social and moral standards have not kept pace with material advancement. Training to meet and solve those social problems is the great need of youth of the modern world.

The teachers and leaders of youth have a much prized opportunity. To meet it we need the contribution of the combined wisdom and insight of the home, industry, and society.

LEWIS S. RECORD,
Superintendent of Schools.

## REPORT OF HEADMASTER TO SUPERINTENDENT LEWIS S. RECORD
### FEBRUARY 14, 1941

I submit, herewith, my annual report as Headmaster of Peterborough High School.

In former reports, emphasis has been placed upon the development of policies, which will create a balance of relationships within departments, as well as between the various departments of the school. In this report, it is gratifying to say that these objectives are becoming a realization.

The English Department in the past has been over-burdened with dramatics, which has made it difficult to devote the necessary time to the teaching of English in its many phases. This year the customary junior three act play will be replaced with a musical production. In making this change, the English Teachers will not be required to spend countless hours in the evening, over a period of four or five weeks, in coaching a play which will benefit a relatively small number of students. By eliminating evening rehearsals, out of town students will be able to participate in a wider variety of activities. The Senior Play and one-act plays, which may be produced during the year, will give this department ample opportunity for work in the field of dramatics. Last Spring the dramatic club entered the State one act play contest. The play, "A Kingdom By the Sea," was reproduced at Laconia by members of this organization. Their efforts were rewarded by winning first place in the larger school group.

In the past the Music Department has had a limited number of major objectives. Most of the work has been of routine nature which does not stimulate a great deal of interest and enthusiasm. We are preparing a musical arrangement which will be produced this spring. This program can be carried on through regularly scheduled classes; will not interfere with the students' program of activities: evening rehearsals will not be necessary; training will be offered to a larger number of students and a real major objective will be provided. The students in this department are also being prepared to take part in the annual State music festival held in the spring. It is a real pleasure to notice in the student body a healthy growing interest in the field of music.

A few years ago an Industrial Arts Department was organized in the Peterborough High School. At first this could almost be classified as one of the extra curricular activities, for the State Department of Education did not recognize it to the extent of allowing graduation credits. Each year new equipment has been added and the scope of work has been broadened. This department is now receiving full recognition by the proper authorities. A few months ago a machine lathe was obtained with a great deal of difficulty; foreign orders and government demands are making it almost impossible to purchase tools and shop machines. Limited floor space is now preventing the addition of new machines and the adoption of new Industrial Arts Courses. This limitation is forcing us to curtail the enrollment in shop courses which would not be necessary with an adequate shop. The National Defense Program is causing the boys to look upon the skilled trades as a new frontier for employment. During the past generations the skilled laborer has, to a great extent, learned his trade in foreign countries. The American born boy thought he could make an easier and better living some other way. Today our own boys are turning away from the four-year colleges, with the realization that it is pointless to obtain an education without some objective. If given the necessary floor space, this department will be of major importance in our high school within the next few years.

New equipment has been added to the Commercial Department, so that the students receiving this training will become more familiar with the different types of machines which they may operate when going into an office. Since the cost of many machines is prohibitive, they are either obtained for a short period on a rental basis or brought into the school for demonstration. Last spring we were able to rent a new three-unit dictaphone for six weeks, at a very low cost. This year the students had a demonstration and were allowed to operate a calculating machine and a bookkeeping machine. The old ditto machine has been replaced with a new automatic liquid

duplicator which saves a great deal of time and produces better work.

The athletic program has been expanded through the addition of more carefully organized touch football, which is offered in the fall to all boys. An organized class for those interested in skiing has been arranged and we hope this new venture will arouse as much enthusiasm as other school sports. Where Peterborough has excellent facilities for this type of activity, there is little reason for not giving it full support.

The customary testing program has been carried on with satisfactory results. Three State tests for seniors are included in this work each year. Last year the State gave tests in Silent Reading, English Forms, and Mental Ability. The senior class of this high school stood well above the State median in all three cases. The results of other English Tests show that the work of this department has constantly improved. The staff at the public library is doing everything possible to assist us in this work. Members of the senior class this year have been granted permission to use the stacks. A survey of reference books is being made in the public library and in our own library, so that unnecessary duplicating expenditures will not be made.

The Guidance Department is organizing its work more carefully this year with each student in the school receiving a private conference. Members of the upper classes and those having unusual problems are interviewed frequently. This is the most difficult work in the entire program, for the problems of each individual must be given careful consideration. A new guidance record form has been developed which goes back ten years. This form includes the vital high school records, post-secondary education, types of jobs held, present address, and notes where there had been outstanding success. It is difficult to compile information concerning students who were graduated in the early thirties. This work has been started so that we may keep in closer touch with the graduates of our school, and to a greater extent determine the effectiveness of the training we offer. Each year we are finding temporary and permanent positions for a greater number of students. We wish to encourage the people in Peterborough and of surrounding towns to call upon the high school, when there is a demand for the services of young people. At all times we have a number of students seeking part-time employment while those planning to attend post-secondary institutions are interested in securing summer employment. There is always a call for permanent work by those not wishing to continue their educational training.

During July and August last year, approximately fifty per cent of our teaching staff attended summer school. This indi-

cates a healthy, professional, and progressive educational attitude.

Last spring the World Book Company wished to revise the Stanford Achievement Test, for the purpose of establishing new up-to-date norms, which could be used more effectively in testing the educational achievement of Elementary and High School students. The Peterborough School System was one of two hundred and thirty selected communities representing thirty-three States. The group tested represents a more extensive normative group than has ever previously been utilized in the establishment of norms for an achievement test. The results of this work have been received in this office and we find that grades seven, eight, and nine, the ones which took the test, are all above the new norm just established.

We have been very fortunate during the recent nationwide epidemic in being able to run on a normal schedule, when so many high schools were forced to close their doors for one or two weeks. The only explanation which can be given is that our student body is in excellent physical condition and has been able to ward off this attack. The school physician and nurse should be given proper credit for keeping our students physically fit.

Since the dark shades have been installed in the auditorium it has been possible to make greater use of our projector. Visual education is taking an undisputed place in the school program. Various field trips have been organized and conducted by members of the teaching staff as a means of supplementing class work and stimulating new interests.

The sympathetic support we are receiving from the people and school authorities of this community furnish encouragement as we face the problems that lie ahead.

Respectfully submitted,

Ernest F. Forbes, Headmaster.

## Report of the Central School 1940–1941

Central School has an enrollment at the present time of 181. Eight tuition pupils are transported from Sharon.

We are not so fortunate in class distribution as we were last year. Grades one and five each have forty members, while grade two only has twenty-two. Grades three, four and six each have respectively twenty-five, twenty-six and twenty-eight pupils.

Forty little untrained people in one room present a real problem. No matter how experienced or exceptional the teacher may be, the fact remains she needs help. It was

decided to add a new instructor to our staff. Miss Alice Gay of Groton was chosen to fill this place and she has a schedule which enables her to help in other departments of our school program.

For some time we have felt the need for art expression in our school, and some definite instruction that would foster it and give necessary technique. Miss Gay has had training in both art and penmanship, and could teach these subjects throughout six grades were it not for the necessity of giving most of her efforts to grades one and five. At the present time she teaches penmanship to grades one, five and six.

Art instruction has been cared for through lessons to the teachers by Miss Helena Putnam of Keene, who was made possible to us by the joined efforts of the towns in Superintendent Record's Union. Miss Putnam comes to us once a week and her course to teachers has brought the desired results in the classroom. There have been lessons in landscapes, tree forms, landscapes adding houses and tree forms, wild animals, animals with landscape background, people, contour and proportions; contour and action, and a final lesson on Composition will constitute the course.

Miss Putnam requires each teacher to participate in the teachers class period and then checks upon the work carried out in the classroom weekly. About twenty teachers have attended these classes.

One more change we have made — our marking periods have been made to follow more closely those of the High School. Marks now are released four times a year instead of six. There are four warning periods to acquaint parents with apparent problems not always made clear through report cards. These serve the added purpose of bringing parent and teacher into a better understanding of the child's difficulties. It is our hope through this method to have fewer children falling below grade at the end of the school year.

Our daily work and efforts have followed the usual schedule as stated in the last three reports.

One hundred and five children have their own library cards and 1,154 books have been taken from our public library for extra reading.

The teachers sincerely appreciate the help given them by the Home Economics and Manual Training Departments of the High School; also the thoughtfulness shown them through the School Board, Superintendent, and parents.

Respectfully submitted,

D. M. Churchill,
Principal.

## Report of the West Peterborough School
## 1940–1941

The highest registration, this year, of the little school on the little hill, has been twenty-three. At present it is twenty-one. This group represents the first four grades, most of the children are young and the time is well filled. Many of them return early at noon and much remedial work is done at that time.

The attendance this year has been depleted by colds, two thirds of the children have, however, been present on the lowest rating days. Six children have not, as yet, been absent or tardy.

The milk and cod-liver oil so kindly contributed again this year, are two things that have helped greatly in health maintenance. The children bring their own small contributions toward these two essentials, but we are still indebted and grateful for the rest.

We had a very especial Christmas this year. The P. T. A. gifts as always, gave much happiness and another box of gifts from Santa, found in the hall, made a lot of fun and excitement.

Miss Martha Cutler gave us this year nearly two hundred, out of circulation, magazines. These the children enjoyed taking home to the older members of the family.

So many nice things, each year, come to the children because of the kindly thoughtfulness of the Peterborough people. They add so much to the welfare and happiness of the children's school life. If there were only some new words with which to thank you more sincerely.

Respectfully submitted,

KATIE T. NICHOLS.

## Report of the Music Supervisor
## March 1941

In the curriculum of most schools in the United States today, is to be found a course, which is named "Music Appreciation." It is difficult to define, because it is such a broad subject which integrates all phases of music into one blended whole. "Music Appreciation" as a heading for a program in our schools today provides an integrated experience which develops in students an understanding of, and a love for music.

To contribute to music appreciation there are certain areas to be covered, and it is the aim of this department to cover this work. It is herewith outlined, showing work accomplished and new policies.

"The fields of Experience in Music Appreciation."

I. Voices.

Acquirement of a beautiful singing tone through an understanding of artistic tone production.

Presented to upper grades as outlined in the "Haywood Universal Song Course."

The Speech Choir.

A new movement of uniting voices for unison speaking realizing the practice of vigorous articulation, good enunciation, pleasant tone, and closely allied to singing. This was demonstrated at the Christmas program with the New Testament story of the Birth of Christ.

Experience in Part Singing.

II. Creative Expression.

Impersonation suggested by songs and instrumental music.

Dramatization of songs.

III. Rhythmic Development.

Fundamental movements.

Rhythm band.

Dancing songs with suitable rhythms.

Music reading: tempo, meter, time, accent, rhythmic note groupings.

Creation of verses and music by fifth grade children.

IV. Listening.

N. B. C. Music Appreciation Hour conducted by Walter Damrosch.

Series A "My Musical Family."

The grade school children follow this course and the broadcasts which occur about every two weeks. Preparation is made in the class period and organized notebooks are kept on the material.

The Junior High School also study this course.

A Record Library has been started at the High School. These purchases were made:

"Peer Gynt Suite" ..... Grieg
"Mother Goose Suite" ..... Ravel
"Carnival of the Animals" ..... Saint-Saens
"Nutcracker Suite" ..... Tschaikowsky
"Symphony No. 5 C Minor" ..... Beethoven
"Symphonic Synthesis from Parsifal" .... Wagner

V. Pictures in Relation to Music.

Bulletin Boards:

Every room at the grade school and the music room at the High School has a space devoted to the showing and discussion of pictures of composers, instruments, etc. These contributions are made by pupils and teachers.

VI. Instrumental Classes.

A very important phase of music and one in which we are sadly lacking. The orchestra again last year was depleted by graduation so that the High School Orchestra consists only of piano, two violins, clarinet and drums. Three members graduate in June. An attempt is being made in the grade school to further this cause through piano classes. The high school has a trombone and tuba class, but we need to own school instruments before this work can be extended. A grade school orchestra has been organized consisting of piano, violin, trumpet and drums, all members of the fifth grade.

VII. Nationality in Music.

Composers of different nations.
Musical instruments peculiar to different lands.
Singing of folk songs with studies.

VIII. Dramatization.

School and Public Performances.

Glee Clubs and Orchestra furnished music for the Armistice Day Program. Incidental music and community singing for P. T. A. Christmas Program. Combined Christmas Program of music and dramatics at the Town House. Program of extra-curricular activities by the grade school for the P. T. A.

Programs in rehearsal are:
"Hansel and Gretel" — Humperdinck for May Day.
"Spring Concert" — High School.
"Music Week Assembly Program."
"All State Music Festival in May."

Organizations

| Grade School | High School |
|---|---|
| Mixed Choir | Glee Clubs |
| Orchestra | Junior High Mixed Chorus |
| | Orchestra |
| | Accompanists Class—a new organization formed to learn the art of accompanying and conducting. |

Schedule of Classes

| Primary Grades | Elementary Grades |
|---|---|
| 3 half hour periods a week | 2 half hour periods a week for two weeks. |
| | 2 half hour periods a week on third week. |
| West Peterborough (once a week) | Junior High School |
| Grade I — 25 minutes | 2—40 min periods a week |
| Grades II and III—25 minutes | Jr. H. Chorus 1—40 min. pr. |
| Grade IV—25 minutes | Jr. H. Choir 1—40 min pr. |

Perhaps the most important item of all is that teaching music in Peterborough is such a joy due to the splendid co-operation of students and teachers.

Respectfully submitted,

ALBERTA COBLEIGH.

## Physical Education Report February 15, 1941

### HIGH SCHOOL

The high school girls' classes meet twice a week for forty minute periods. Each girl is examined for physical defects and all those physically fit are required to attend these classes. In these periods much work is done along the line of exercise, games, athletics and dancing. Emphasis on posture has been stressed all this year due to a very apparent need for it. Most individual work should be done but until a corrective room is established not much can be accomplished toward this part of the health program. Many games have been played including punch ball, end ball, alley soccer, volley ball, nine court basketball, badminton and party games. These have been actively participated in by all. The rules have been learned and sportsmanship and skill have been developed. These things make for the fullest enjoyment of any game.

We have a very good victrola for dancing and marching. Quite a few new records have been added to the old collection. The modern dancing seems to be especially well liked and in many cases put to good use.

Our stunt program was started in the early fall but was discontinued while our mats were being used at the Town House. After basketball season this program will be resumed.

We have two after school activities which are carried on with great zeal. Last fall our two Field Hockey teams played Gardner, Newport, and Keene. The end of Hockey season led us into the favorite sport of all — basketball. The girls have had a fairly satisfactory season. The team has much fine material and although some games have been lost much co-operation and true sportsmanship have been gained.

After basketball season we hope to begin work on a Spring Demonstration which will show the parents and friends some of the things done in the physical education classes during the year.

## Junior High

The Junior High School girls and boys have two forty minute periods a week of physical education required of all who are physically able to participate. At this age much can be done toward teaching rules, developing skills, and instilling good sportsmanship. These things are learned and practiced in games, stunts, marching, calisthenics, dancing, and individual skills.

For the pupils who are particularly active and want more play than the gymnasium class offers, we have the extra curricular basketball teams for both the boys and girls.

## Central School

Here at Central School, despite the handicap of having no gymnasium, a complete and varied physical education program is carried on. The first three grades have physical education three times a week for half-hour periods. The upper grades meet twice a week for half-hour periods. In the lower grades, mimetics, marching, song plays, dances, games and stunts are taught. In the upper grades exercises, marching, dances, stunts and games of both high and low organization are taught.

Besides regular class periods we have had a corrective class every Wednesday morning for those pupils who need this special work.

Quite a marked improvement is shown in the pupils, proving that the work does have it's good results.

At this time we are beginning plans for a May Day Program which has been a yearly event in the Central School for many years.

## West Peterborough

In this little school physical education is not neglected. Every Monday morning one hour is devoted to this part of the pupils education. Usually, the first two grades have their activities the first half hour, with the third and fourth grades participating in the second half hour. Many times, however, the program is so arranged that all play together. The younger children especially enjoy this, and done occasionally, it works out very well.

Respectfully submitted,

Greta Sundin,
Physical Education Director

# SCHOOL BOARD REPORT

## 1941

A number of problems faced the Board as the school year began this year. There were forty-one first grade pupils as compared to twenty-two last year and an average of about twenty-five for previous years. It seemed advisable, therefore, to add another teacher for assisting in the first grade as well as aiding, or at least liberating, extra time for corrective work. The Board feels that the first grade work is fundamental and if there was to be the same high standard set for this year's primary class, then an additional teacher was needed. We can report satisfactory results as evidence of the procedure.

Visual education has considerable merit and can be adapted to a large field of presentation. There is, however, a problem in the use of it as not only are there some teachers limited in native ability in this regard but new ways of presentation are soon a problem. Recognizing the need for making broad and diversified presentation, a class in art as related to teaching was organized for the teachers in conjunction with other towns in the Union. Although this course has not been completed, all reports are favorable toward accomplishing the objective.

Transportation is always a problem. The Board acts with the understanding that the District voted to transport both grade and High School pupils. It feels, therefore, that although the State law permits a town to disregard pupils in the High School, it becomes necessary that the Districts instruct the Board not to transport High School pupils if they wish the problem handled in that way.

The transportation contract can only cover conditions at the time of issue. There is no way to forecast where people will be living or how many children will be eligible for transportation. Last year there were forty-one extra and the present year thirty-nine are transported in excess of the base contract. There are 148 pupils being transported, sixty-three in the grades and eighty-five in the High School. A very satisfactory price has been given for the extra number. Six thousand dollars covers the base contract and an agreement that extra pupils be transported for a per unit cost of $44.00 cares for this situation. It should be noted, however, that a figure has been used which is much less than $44.00. The Board appreciates this voluntary waiver of contract price on the part of the transportation agent as it has meant an appreciable saving for the citizens.

Home Economics and Manual Training have been receiving extra consideration the past year. The correlation of mind and hand has become unusually important as the home life of children has changed. A bit late has been realized the decline in the Yankee ingenuity in his ability to do many things with his hands. The national problem of defense accentuates the need for these things. The Board has for several years tried to bring about a strengthening of training in such courses and hopes to continue until such time as full recognition is given these activities as has long been given college preparatory work.

A number of plans to facilitate the Manual Training has been considered. It would appear that if standard work is to be done for all seeking this training, more space for shop work must be found. The addition of metal working equipment has utilized all available space.

Considerable satisfaction should be gotten from the fact that the health program seemingly has demonstrated during the influenza epidemic its worth. While schools in neighboring towns were running 25% to 50% absence records, the local schools were only 10% to 20% and at no time in a condition that closing seemed advisable. The cod liver oil, milk and a warm dish at luncheon seem to the Board to have demonstrated their worth in this particular epidemic.

There were enrolled seventy-seven tuition pupils; sixty-five High School and twelve elementary. A fee of $100.00 is charged for High School and $36.00 for elementary tuition. This would, to some, indicate $6,890 tuition, but for various reasons pupils discontinue and there has been a policy followed in which only positive expectations are used in budget forecasting. Already three have changed so that only $58.38 will be realized from what appeared to be a promise of $300.00.

The close of the year 1939–40 indicates a balance in the Treasury of $1,748.75, the use of which in the major part has been as follows:

| | |
|---|---|
| Fixing the roof on High School Building | $453 00 |
| Extra teacher for first grade | 822 50 |
| Manual Training and Home Economics | 459 84 |
| | $1,735 34 |

Difficulty in heating a room used for mathematics instruction purposes has always been a problem as well as necessitating forcing the heating system which in turn is expensive. Insulation of this room has accomplished the double purpose of comfort and a saving eventually in fuel.

Some matters now under consideration are insulating portions of school buildings, improving certain features of the auditorium to provide more adaptability for visual training,

the rewiring and painting of the Central School building and the solution to the problem of room for the expanding classes and increased interest in Manual Training. The latter could be solved by an inexpensive building of wood far enough from the High School building so as not to affect insurance rates, yet heated by the present heating plant which is capacious enough for the purpose.

The Board has found their work for the citizens and with the staff, pleasant, and take this opportunity to express their appreciation.

Tooth brushes have been distributed to children who needed them at Central and West Peterborough Schools.

A report of the Community Student Health Fund has been sent to the Parent-Teacher Association.

We believe that the giving of Cod Liver Oil, the correction of physical defects, corrective exercises, the service of hot soup, and the distribution of milk in the grades are all proving their worth. This is shown by the annual gains in weight recorded

on the physical growth charts, and the resistance of students to disease.

The following dental, tonsil, eye, and public health clinics have been held during the year.

CLINICS:

Weight charts and summary sheets have been given to the class room teachers. A similar record is in the nurse's room at the high school building for reference when needed by the teacher to find out whether the physical defect has any bearing on the student doing failing work.

Disease census cards have been made out for all new entrants in schools. A health card is on file for each student.

In the grades at West Peterborough and Central School, Health Inspection is carried on each morning by the class room teacher. Health habits have been promoted by "A Go To Bed Early Special Train" in Grade II at Central School. By means of a "Health Store" the children of Grade I in the Central School have been taught to choose proper foods. Health posters helped with proper foods and dental attention in Grade II.

This year a Health Exhibit sponsored by the State Dept. of Education was held at the Wheelock School, Keene, N. H., during the State Teachers' Meeting. Central and West Peterborough Schools exhibited Health posters and booklets made by the children in the first five grades, under the supervision of the class room teachers. All of these exhibits received favorable comment.

A first-aid cabinet made by the sixth grade students attracted a great deal of attention.

The time allowed for the work of the School Nurse is from 8:30 A. M. to 12 noon daily for five days a week.

At this time the Medical Inspection department wishes to thank:

(a) All organizations contributing to the Community Student Health Fund, sponsored by the Parent-Teacher Association.
(b) The American Red Cross.
(c) The American Guernsey Cattle Club.
(d) The Orchard Hill Farm.

and to express its appreciation for the co-operation of:

(1) The Public Welfare and Health Department (Local and County)
(2) The Parent-Teacher Association.
(3) The Superintendent of Schools, Board of Education (State and Local), and Headmaster, Principals and Teachers.

We are very grateful to the Doctors, Dentists, Eye specialist, nurses, and the Peterborough Hospital Staff for their services and to all students, school employees and others who assisted in any way.

Respectfully submitted,

DONALD M. CLARK, M.D.
Medical Inspector.

OLA MYHAVER, R.N.
School Nurse.

## PETERBOROUGH HYMN
## A. D. 1620

God our Father,
    Glory, Lord to Thee!
Before whose voice
    Is mute the thund'ring sea!
Through wind and foam
    Thou lead'st us home—
To Thee be glory thro' eternity.

Great Jehovah,
    Author of our faith
To Thee we bring
    Full hearts and joyful breath
Be Thou our guide
    With Thee we bide
To love, to labour, and to hope till death.

Edward MacDowell
